Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/589,944	Applicant(s) BERMINGE ET AL.	
	Examiner SARA ADDISU	Art Unit 3724	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 17 November 2008.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-20 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-20 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 18 August 2006 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☒ All b) ☐ Some * c) ☐ None of:
1. ☒ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

This Office Action is in response to the amendment filed 11/17/08. New claims 11-20 have been added. Currently, claims 1-20 are pending in this application.

Double Patenting

1. Applicant is advised that should claim 1 be found allowable, claims 10 and 11 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yankoff (USP 4,621,547).

Regarding claims 1-3, 5, 9-15, 17, YANKOFF teaches in a cutting tool for parting and grooving operations, a tool head comprising a basic holder part (A: see figure

Art Unit: 3724

below) and, joined to the basic holder part (A), a blade part (B: wherein the basic holder part and the blade part are formed in one piece, the basic holder part having considerably larger width than the blade part) in a front portion (Examiner defining the front to be F) of which an insert pocket (16) is formed, in which a cutting insert (18) is fastenable (i.e. via what appears to be brazing), the cutting tool comprising means for supplying cooling agent to the cutting insert, wherein said cooling agent supplying means includes a tube member (34 & 36 as a unit), which is mounted in a recess of the basic part (A), which is horizontally_transverse to a longitudinal direction of the blade part and arranged in the tool head, the tube member having an inlet (28) for connection to a cooling agent source and an outlet/leading channel (32) for leading the cooling agent in a direction towards the cutting insert ('547 figures 1 and 2 and col. 1, lines 17-20). Regarding claims 1 and 10-12, YANKOFF discloses the claimed invention except for the tool head being detachably connected to a coupling part (i.e. YANKOFF teaches an integral part). It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the tool head detachable for easy of exchange (for e.g. when performing repair, sharpening of dull blades..etc), because it has been held that constructing a formerly integral structure in various elements involves only routine skill in the art. Regarding claims 4, 6, 8, 16, 18 and 20, YANKOFF teaches in figure 2, the tube member receiving recess in the tool head has a longitudinal extension substantially perpendicular to the longitudinal extension of the blade part and wherein the outlet (32) of the tube member is arranged at substantially the same level vertically as the cutting insert in the insert pocket. Regarding claims 7 and 19, YANKOFF teaches

Art Unit: 3724

tube member has a substantially cylindrical basic shape and has at least two sections (34 & 36) with different diameters ('547, figure 2).

Response to Arguments

Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
